

Chryso albomaculata a cobweb spider

High counts of:
 15 - Scotland - 2021-12-01
 2 - Chatham - 2024-05-10
 1 - Chatham - 2021-03-29

Status	Rank
NC	US
NC	Global

ORDER:ARANEAE INFRAORDER:ARANEOMORPHAE
 FAMILY:THERIDIIDAE

TAXONOMIC_COMMENTS: albomaculata translates to "white spots" which is a misnomer since spots are yellow in living specimens. Name likely given from faded specimens in alcohol.
