

Grapholita new species 1 No common name

Status	Rank
NC	US
NC	Global

FAMILY: Tortricidae SUBFAMILY: TRIBE:
TAXONOMIC COMMENTS: This is an undescribed species of *Grapholita* that was found by David George and Jeff Niznik in 2025 in Cumberland County. The male genitalia closely resemble those of *G. delineana* -- and somewhat less so -- those of *G. tristrigana*.
