ID COMMENTS:

DISTRIBUTION: The majority of the records for this species are from Florida. Also occurs elsewhere along the Gulf Coast and north as far as North Carolina, where it was recorded at Spout Springs in the Sandhills (Powell and Brown, 2012)

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT: North Carolina records are all from the Fall-line Sandhills. At least some of the records from Florida are also from sandhills habitats, including at the Archbold Biological Station (Powell and Brown, 2012).

FOOD: The host plants are apparently unknown.

OBSERVATION\_METHODS:

NATURAL HERITAGE PROGRAM RANKS: GNR SNR [S2S3]

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.

COMMENTS:
