ID COMMENTS:

DISTRIBUTION: Please refer to the dot map.

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT: Fields and coastal strand communities (Wagner, 2005). Our records come from both open habitats, including Longleaf Pine communities and old fields, but also from a wide range of forested habitats, from Coastal Plain swamps to Northern Hardwoods at high elevations.

FOOD: Larvae feed on a number of composites, including asters, dandelion (*Taraxacum*), and goldenrod (*Solidago*); also reported on clover (*Trifolium*) (Wagner, 2005). We do not have any feeding records in North Carolina.

OBSERVATION_METHODS:

NATURAL HERITAGE PROGRAM RANKS: G5 SNR [S5]

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.

COMMENTS:
