ID COMMENTS:

DISTRIBUTION: Please refer to the dot map.

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT: Almost all of our records come from high elevation forests, i.e., above 4,000'. Only a few come from elevations below that level, at a few sites in the Great Smoky Mountains and the Amphibolites.

FOOD: Polyphagous, feeding on Mountain Ash, cherries, serviceberries, and probably other members of the Rosaceae (Wagner et al., 2002); also reported from alder, birch, and willow.

OBSERVATION_METHODS:

NATURAL HERITAGE PROGRAM RANKS: G5 S3S4

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.

COMMENTS:
