ID COMMENTS:

DISTRIBUTION: Please refer to the dot map.

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT: Woodlands and forests (Wagner, 2005). Our records come from a wide variety of hardwood forests, including bottomlands, mesic slopes, dry-xeric sand ridges, cove forests, and high elevation northern hardwoods.

FOOD: Larvae feed on oaks (Wagner, 2005). Reports from other hosts require verification. In North Carolina, larvae have been recorded feeding on White Oak (*Quercus alba*).

OBSERVATION\_METHODS:

NATURAL HERITAGE PROGRAM RANKS: G5 SNR [S5]

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.

COMMENTS:
