TECHNICAL DESCRIPTION, IMMATURE STAGES:

ID COMMENTS:

DISTRIBUTION: Please refer to the dot map.

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT: Our records all come from wet-mesic habitats, including cove forests, northern hardwoods, and riparian forests in the Mountains and swamp forests in the Coastal Plain. We are unsure, however, whether the populations in the Mountains and Coastal Plain represent the same species.

FOOD: Probably feeds on dead leaves and detritus, like other members of this genus.

OBSERVATION_METHODS:

NATURAL HERITAGE PROGRAM RANKS:

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.

COMMENTS:
