ID COMMENTS:

DISTRIBUTION: Please refer to the dot map.

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT: Our records come mainly from maritime habitats on barrier islands or from other dry, sandy habitats in the Tidewater region, usually near ponds or freshwater marshes. More information is needed on the larval host plants before the habitats can be well understood

FOOD: Larval host plants appear to be unknown

OBSERVATION_METHODS:

NATURAL HERITAGE PROGRAM RANKS:

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.
