ID COMMENTS:

DISTRIBUTION: Found primarily in the Coastal Plain and Eastern Piedmont in North Carolina, but with a handful of records from lower elevations in the Mountains.

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT: Our records come mainly from open, herbaceous areas, including old fields, dune grasslands, savannas, and pond and lake shorelines.

FOOD: Reported hosts include Pearly Everlasting (*Anaphalis* sp.), rabbit-tobacco (*Pseudognaphalium*), and Saltmarsh Fleabane (*Pluchea odorata*) (Forbes, 1948; Kimball, 1965). As of 2025, we have one rearing record for *Pseudognaphalium obtusifolium*.

OBSERVATION_METHODS:

NATURAL HERITAGE PROGRAM RANKS: G5 SNR [S4S5]

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.

COMMENTS:
