ID COMMENTS:

DISTRIBUTION: Please refer to the dot map.

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT: The use of Dock and Plantain suggest that ruderal or other early successional habitats could be used. However, our records come mainly from mesic-to-wet forests, which is more consistent with the use of Common Climbing Buckwheat.

FOOD: Larvae have been reported on Dock, Common Climbing Buckwheat, and Plantain (Robinson et al., 2010; Wagner et al., 2011)

OBSERVATION_METHODS:

NATURAL HERITAGE PROGRAM RANKS: G5 S3S4

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.

COMMENTS:
