ID COMMENTS:

DISTRIBUTION: Please refer to the dot map.

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT: Our two records for this species come from Spruce-fir Forests, where the species is more likely to be a rare stray rather than a resident.

FOOD: Larvae have recorded on Showy Milkwort (*Asemeia grandiflora*) (Robinson et al., 2010), which is rare in North Carolina and restricted to the Sandhills region. We do not have any feeding records in North Carolina.

OBSERVATION_METHODS:

NATURAL HERITAGE PROGRAM RANKS: GNR SNR [SU]

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.

COMMENTS: This species may be just a migrant in our area
