ID COMMENTS:

DISTRIBUTION: Please refer to the dot map.

FLIGHT COMMENT: Please refer to the flight charts.

HABITAT: Our records come from a wide range of habitats, ranging from barrier islands and coastal peatlands to high elevation forests. We are unsure, however, whether any of these records represent resident populations.

FOOD: Larvae are polyphagous on forbs, including many crop species. Wagner et al. (2011) specifically list cantaloupe, strawberry, and sweet potato.

OBSERVATION\_METHODS:

NATURAL HERITAGE PROGRAM RANKS: G5 SNR [S3S4]

STATE PROTECTION: Has no legal protection, although permits are required to collect it on state parks and other public lands.

COMMENTS:
