

An AMPHIBIAN Checklist for Morrow Mountain State Park 31 taxa

Herpetology is the branch of zoology dedicated to the study of amphibians (frogs, toads, salamanders, and newts) and of reptiles (snakes, lizards, turtles, and crocodilians). "Herps" are a diverse and interesting group of animals that are important elements in the fabric of life.

Amphibian is derived from the Greek work "amphibios". "Amphi" meaning 'both' and "bio" meaning 'life' - hence leading a double life. Indeed, most amphibians are aquatic as juveniles and breath with gills. After transformation, the adults usually live on land and most have lungs.

Many amphibians are very sensitive to environmental change. Their diversity and abundance can be an indication of an area's ecological health.

In early spring and during the summer listen for the calls of frogs and toads. Salamanders and newts, however, are silent and can be quiet secretive.

Reptiles, unlike amphibians, have dry skin covered with horny scales. Most, with the exception of snakes and legless lizards, have 4 legs with five clawed digits on each foot. While some amphibians retain gills as adults, all reptiles breathe solely by means of lungs.

Look for these cold-blooded animals on warm to hot sunny days when they bask on rocks, logs and tree trunks. Sixty-seven species have been recorded in North Carolina.

31 AMPHIBIAN taxa**AMBYSTOMATIDAE: [2]**

__ Spotted Salamander	x x x x
<i>Ambystoma maculatum</i>	
__ Marbled Salamander	x x x x
<i>Ambystoma opacum</i>	

PLETHODONTIDAE: [10]

__ Northern Dusky Salamander	x x x x
<i>Desmognathus fuscus</i>	
__ Dwarf Salamander (historical)	- - x -
<i>Eurycea quadridigitata</i>	
__ Chamberlain's Dwarf Salamander	- - x -
<i>Eurycea chamberlaini</i>	
__ Southern Two-lined Salamander	x x x -
<i>Eurycea cirrigera</i>	
__ Three-lined Salamander	x - x -
<i>Eurycea guttolineata</i>	
__ Four-toed Salamander	x - - -
<i>Hemidactylium scutatum</i>	
__ White-spotted Slimy Salamander	- x - -
<i>Plethodon cylindraceus</i>	
__ Eastern Mud Salamander	x - - x
<i>Pseudotriton montanus montanus</i>	

SALAMANDRIDAE: [1]

__ Red-spotted (Eastern) Newt	x x x -
<i>Notophthalmus viridescens viridescens</i>	

HYLIDAE: [7]

__ Cope's Gray Treefrog	x x - -
<i>Hyla chrysoscelis</i>	
__ Green Treefrog	- x - -
<i>Hyla cinerea</i>	
__ Squirrel Treefrog	- x - -
<i>Hyla squirella</i>	
__ Striped Southern Chorus Frog	x - - -
<i>Pseudacris nigrita nigrita</i>	
__ Little Grass Frog	- x - -
<i>Pseudacris ocularis</i>	

MICROHYLIDAE: [1]

__ Eastern Narrow-mouthed Toad	x x x -
<i>Gastrophryne carolinensis</i>	

PELOBATIDAE: [1]

__ Eastern Spadefoot	x x - -
<i>Scaphiopus holbrookii</i>
