

An AMPHIBIAN Checklist for Gorges State Park 24 taxa

Herpetology is the branch of zoology dedicated to the study of amphibians (frogs, toads, salamanders, and newts) and of reptiles (snakes, lizards, turtles, and crocodilians). "Herps" are a diverse and interesting group of animals that are important elements in the fabric of life.

Amphibian is derived from the Greek work "amphibios". "Amphi" meaning 'both' and "bio" meaning 'life' - hence leading a double life. Indeed, most amphibians are aquatic as juveniles and breath with gills. After transformation, the adults usually live on land and most have lungs.

Many amphibians are very sensitive to environmental change. Their diversity and abundance can be an indication of an area's ecological health.

In early spring and during the summer listen for the calls of frogs and toads. Salamanders and newts, however, are silent and can be quiet secretive.

Reptiles, unlike amphibians, have dry skin covered with horny scales. Most, with the exception of snakes and legless lizards, have 4 legs with five clawed digits on each foot. While some amphibians retain gills as adults, all reptiles breathe solely by means of lungs.

Look for these cold-blooded animals on warm to hot sunny days when they bask on rocks, logs and tree trunks. Sixty-seven species have been recorded in North Carolina.

24 AMPHIBIAN taxa

AMBYSTOMATIDAE: [1]

___ Spotted Salamander x - - -
Ambystoma maculatum

PLETHODONTIDAE: [12]

___ Green Salamander x x x x
Aneides aeneus

___ Shovel-nosed Salamander - x - -
Desmognathus marmoratus

___ Black-bellied Salamander - x x -
Desmognathus quadramaculatus

___ Ocoee Salamander x x x -
Desmognathus ocoee

___ Blue Ridge Two-lined Salamander x x x -
Eurycea wilderae

___ Three-lined Salamander x x x -
Eurycea guttolineata

___ Carolina Spring Salamander x x - x
Gyrinophilus porphyriticus dunni

___ Southern Gray-cheeked Salamander x x x -
Plethodon metcalfi

___ Southern Red-backed Salamander x - - -
Plethodon serratus

___ Southern Appalachian Salamander x x - x
Plethodon teyahalee

___ Black-chinned Red Salamander x x x -
Pseudotriton ruber schencki

SALAMANDRIDAE: [1]

___ Red-spotted (Eastern) Newt x x x x
Notophthalmus viridescens viridescens

HYLIDAE: [2]

___ Cope's Gray Treefrog x x - -
Hyla chrysoscelis

___ Squirrel Treefrog x - - -
Hyla squirella

BUFONIDAE: [2]

___ Eastern American Toad x x x -
Anaxyrus americanus

___ Fowler's Toad - x - -
Anaxyrus fowleri

HYLIDAE: [2]

___ Spring Peeper x x - x
Pseudacris crucifer

RANIDAE: [4]

___ American Bullfrog - x x -
Lithobates catesbeianus

RANIDAE: [4]

___ Green Frog - x - -
Lithobates clamitans

___ Pickerel Frog - x x -
Lithobates palustris

___ Wood Frog x - x -
Lithobates sylvaticus

PLETHODONTIDAE: [12]

___ Seal Salamander x x x x
Desmognathus monticola

___ Northern Red Salamander x x - x
Pseudotriton ruber ruber
