An AMPHIBIAN Checklist for Mayo River State Park 21 taxa

Herpetology is the branch of zoology dedicated to the study of amphibians (frogs, toads, salamanders, and newts) and of reptiles (snakes, lizards, turtles, and crocodilians). "Herps" are a diverse and interesting group of animals that are important elements in the fabric of life.

Amphibian is derived from the Greek work "amphibios". "Amphi" meaning 'both' and "bio" meaning 'life' - hence leading a double life. Indeed, most amphibians are aquatic as juveniles and breath with gills. After transformation, the adults usually live on land and most have lungs.

Many amphibians are very sensitive to environmental change. Their diversity and abundance can be an indication of an area's ecological health.

In early spring and during the summer listen for the calls of frogs and toads. Salamanders and newts, however, are silent and can be quiet secretive.

Reptiles, unlike amphibians, have dry skin covered with horny scales. Most, with the exception of snakes and legless lizards, have 4 legs with five clawed digits on each foot. While some amphibians retain gills as adults, all reptiles breathe solely by means of lungs.

Look for these cold-blooded animals on warm to hot sunny days when they bask on rocks, logs and tree trunks. Sixty-seven species have been recorded in North Carolina.

21 AMPHIBIAN taxa		RANIDAE: [5]
AMBYSTOMATIDAE: [3]		Southern Leopard Frog x x -
Spotted Salamander	x	Lithobates sphenocephalus
Ambystoma maculatum		Wood Frog x
Marbled Salamander	x	Lithobates sylvaticus
Ambystoma opacum		PLETHODONTIDAE: [4]
Mole Salamander	x - x -	Unidentified Desmognathus species x
Ambystoma talpoideum		Desmognathus unidentified species
PLETHODONTIDAE: [4]		
Northern Dusky Salamander	x	
Desmognathus fuscus		
Southern Two-lined Salamander	x	
Eurycea cirrigera		
Four-toed Salamander	x	
Hemidactylium scutatum		
White-spotted Slimy Salamander	x	
Plethodon cylindraceus	Λ	
SALAMANDRIDAE: [1]		
Red-spotted (Eastern) Newt		
Notophthalmus viridescens viridescens	XXX-	
*		
HYLIDAE: [4] Cope's Gray Treefrog		
Hyla chrysoscelis	x x	
Mountain Chorus Frog		
-	x	
Pseudacris brachyphona		
BUFONIDAE: [2]		
Eastern American Toad	хх	
Anaxyrus americanus		
Fowler's Toad	хх	
Anaxyrus fowleri		
HYLIDAE: [4]		
Eastern Cricket Frog	хх	
Acris crepitans		
Spring Peeper	x	
Pseudacris crucifer		
Upland Chorus Frog	x	
Pseudacris feriarum		
RANIDAE: [5]		
American Bullfrog	ххх -	
Lithobates catesbeianus		
Green Frog	хх	
Lithobates clamitans		
Pickerel Frog	ххх -	
Lithobates palustris
